August Weekly Themes:

Week 3: Architecture

Week 4: Business & Entrepreneurship

Here's what to do:

First, think about what the topic means to you. What does it make you think about? How does it make you feel.

Then, how best to think about how you can best express those thoughts and feelings in an activity or a project that you come up from scratch. Next, complete the activity or project. Make sure it's original!

Finally, upload it to social media as text, images, or video using the hashtag #8WeekStreak and #Expo2020Champions.

If the topic is sustainability for example, you might want to start a sustainable project , or write an story about some aspect of sustainability. It's really up to you, as long as what you create is original.
