

EXPO 2020 CHAMPIONS

FEBRUARY CHALLENGE

In light of Innovation Month, we challenge you to create an innovation that will help solve global challenges and help make the world a better place!

You can work on it individually or in groups.

STEPS TO FOLLOW:

- **Connect:** Choose the people you want to help. They can be from your school, home, neighborhood, community or any other place in the world.
- **Imagine:** Think about the challenges they face and how those challenges can be made better.
- **Innovate:** Think about different solutions and choose the most innovative one.
- **Create:** Sketch your innovative idea and make a basic model of your idea using recycled materials.

 **Tip:** Use the Formula for Greater Good to help you develop your project and explain what it's all about:

I am helping **(a person)** to **(challenge I'm helping to solve)** by creating **(my innovation)**.

OUTCOME:

We'd love to see your creations!

- You can Share the journey of the creation of your innovation in a short video capturing your steps. Present your innovation to your class or family.
- You can then tag us in the short video. Students, teachers and parents can share on social media by following us @Expo2020schools and tagging #ExpoSchoolProgramme
- Teachers who use these challenges in class can also tag us on the Expo Schools social media, so we can see all of your amazing classwork!
